About Me

Hi, I'm Syifa, currently pursuing an undergraduate degree in Information Technology at Institut Teknologi Sepuluh Nopember. Prior to this, I graduated from a vocational high school majoring in Software Engineering. With over three years of experience in the IT field, I've developed skills in web development using HTML, CSS, and JavaScript, along with version control through Git. I'm also proficient in using Figma for UI/UX design.

Experiences

Front-end Developer Internship at a National University in Jakarta

July - December 2023

- Developed the initial code architecture for an academic information system website.
- Created UI/UX designs to enhance the user experience.
